

Technology Exploration Interest Group

Purpose

To serve as a forum for exchanging technical information and lessons-learned experiences about current and trending software technologies, services, and other internet-related software technologies.

Primary goals include:

- Providing CEOS/WGISS Agencies opportunities to collaborate and discuss current and future technology solutions
- Researching technologies that can help the Earth observation community be flexible and adaptable in their IT infrastructure
- Facilitating CEOS/WGISS understanding of all generations of technology and supporting the implementation of both legacy and leading edge technologies into Earth observation data systems
- Promoting technologies in CEOS/WGISS that prove beneficial to the Earth observation community

Recent topics of interest: Big Data, Cloud Computing, Data Cubes
